

Monday 10<sup>TH</sup> June 2024

Dear Resident,

Thank you again for your patience with building work ongoing at Scalby School.

We are hoping to have all the major works indicated in my previous correspondence completed by the end of September.

I just wanted to update you on a couple of areas that have actually been brought forward.

#### **Update Phase 1 – Portakabin Construction**

The substation work has commenced. This will involve a substation at the front of the school near the delivery entrance. Cabling will be run from this substation to both the Portakabins and the Main School. The expectation is that this will take the whole summer to complete and then Northern Powergrid will need to action the changeover. This will hopefully mean that we can remove the generators in the Autumn term.

#### **Update Phase 2 (July and August) Remodelling of the outdoor are on the school playground**

The new dining room structure works will commence later this month (June), removing one of the marquees from the site. This structure will be attached to the side of the current gym.

We will endeavour to keep you updated with any further new.

Mr C Robertson
